AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT
(continued)

The purpose of this modification is to require, pursuant to the "Changes" clause, additional project support for NASA enterprise solutions for secure authentication as delineated in PWS section 3.3.5, Page J-1-24. Accordingly, NNM04AA02C is modified as follows:

- A. Attachment J-1, Performance Work Statement, is revised to direct the contractor, pursuant to the "Changes" clause, to provide additional project support for NASA enterprise solutions for secure authentication as delineated on the revised PWS Page J-1-24, Section 3.3.5.
- B. It is mutually agreed and understood that the modification for the effort delineated in (A) above covers only the period of November 1, 2005 through December 31, 2005, and that a not-to-exceed (NTE) cost for performance of the work covered by this change in the amount of \$483,428 is hereby established. Further, it is agreed and understood that a total NTE cost for performance of this change covering the period November 1, 2005 through December 31, 2008, in the amount of \$9,153,215 is hereby established. It is further agreed and understood that any costs ultimately definitized over and above the NTE amounts established for the periods covered by this change shall be non-fee bearing.
- C. The proposal to be definitized as a result of this change order shall be submitted as Revision 3 to SAIC proposal SAIC-P-012, Revision 2, dated October 14, 2005 and should reflect the deletion of costs for the month of October, 2005. This change order effort and subsequent proposal is required in order to allow immediate commencement of the effort until such time as technical issues related to Revision 2 can be resolved. This proposal shall be prepared in accordance with FAR Subpart 15.4, Table 15-2 (in the format prescribed for "Change Orders, Modifications, and Claims") and included costs through Option Period No. 2. This proposal shall be submitted by November 8, 2005.

D. The modification(s) made above are reflected in total on the change page(s) enclosed herewith. In order to reflect the change(s) made, the page(s) listed below are hereby deleted from, or added to, NNM04AA02C. Either bolded text or a vertical change bar included in the right margin indicates the specific area(s) of change.

E. All other terms and conditions of NNM04AA02C remain unchanged.

3.3.4 IT Security Perimeter

The contractor shall provide support to implement and maintain a consistent IT security perimeter. In providing this service, the contractor shall:

- a. Provide a phased approach toward centralized operations of a security perimeter with respect to firewalls and intrusion detection systems. The contractor shall provide a secure NASA WAN perimeter that includes monitoring, firewall and DOS services for NASA at each peering point.
- b. Develop and maintain a Demilitarized Zone (DMZ) design consistent with the Agencywide architecture and environment in support of Agencywide projects and collaboration (DRD 974MA-007). Monitor the traffic passing into and out of the perimeters of each Center and provide an analysis of the nature of the traffic showing what types of services are being used, the volume of traffic associated with the services, how connections are made, and their identity.
- c. Deploy and operate network encryption services such as VPN or point-to-point solutions. The contractor shall provide recommendations on how to support out of band management of IT security monitoring, data analysis engines, firewall and VPN services and the operations and maintenance for such devices.

3.3.5 Secure Authentication Service

The contractor shall operate and maintain a secure authentication service. In providing this service, the contractor shall:

- a. Create, issue, and manage smart card authentication and secure tokens. Maintain records in accordance with DRD 974MA-007.
- b. Provide smart card administration for the Agency.
- c. Maintain and operate the secure authentication infrastructure.
- d. Coordinate in a seamless fashion with the appropriate security services organizations regarding smart card administration.
- e. Integrate Agencywide applications with the smart card.

In addition, the contractor shall provide project support (e.g., conversion) for NASA enterprise solution for secure authentication, including Common Badging Access Control System (CBACS), NASA Integrated Services Environment (NISE), Headquarters Electronic Messaging Initiative (HEMI), and E-Authentication.

3.4 DATA CENTER SERVICES

The contractor shall provide the data center services that centrally manage computer systems and computer operations for the Agency. MSFC is delegated project management responsibility for the NASA ADP Consolidation Center (NACC), a centralized mainframe capability, and for other Agencywide midrange/server systems. The data center shall provide the following for the Agency and its customers:

- a. Consolidation and centralization of various NASA center workloads onto fewer mainframe and midrange/server platforms and operating environments that are standard in nature.
